

Stretch Film Rewinding Machine

Stretch Film Rewinding Machine is developed for can be used to rewind stretch film,cling film from big roll into small roll by same width.

This model of rewinding machine is the most practical for fully automatic operation in stretch film rewinding.

Meanwhile, the operability of this machine is very simple and user friendly. The width of mother roll of this machine can be ordered by customer's request,500,600,770mm.

This rewinding machine is applied to rewinding roll for PE stretch film of pallet stretch wrap,industrial stretch,hand stretch roll,extended core stretch roll etc,and it is very best for rewinding PVC food cling film,and PE food stretch wrap,PE cling film etc.

Features:

1.This model is built with automatic control system consisting of top brand premium PLC, human-computer interface programmer and frequency inverter.

So this machine has most automation.
